Time Allocation: 5 minutes

Three ships are berthed next to each other. A blue ship is to the right of a red ship and to the left of a green ship. If the blue ship and the green ship change places then -

- ☐ The red ship and the blue ship are next to each other.
- ☐ The green ship is between the red ship and the blue ship.
- ☐ The red ship is immediately to the left of the blue ship.
- ☐ The red ship is in the middle

Questions:

What process did you use to come up with the correct answer?
Why are written or verbal descriptions difficult to follow?
